The Chicago Private Dining Steakhouse Group is comprised of the top 25 steakhouses inside the downtown Chicago area. In addition to collectively helping their restaurants exceed guests' expectations, they also collaborate to help serve the community. For the third year in a row, the Group donated and prepared all of the food served at The Great Chicago Steak Out -- this helps us ensure even more of the fundraising dollars go directly to the Greater Chicago Food Depository. Join FIA in thanking them for coming together to do what they do best -- helping to feed members of the Chicago community.

### Feeding Chicago's Hungry

Over the past five years, the futures community, through Futures Cares, has raised \$2 million to benefit the Greater Chicago Food Depository. The GCFD, through a network of 650 food pantries, makes a daily impact in the Chicago area. In 2012 alone, the depository distributed 66 million pounds of food or the equivalent of 150,000 meals a day. Futures Cares is proud to help this cause.

### A Great Event

Chefs from more than 15 of Chicago's finest steakhouses participated in the third annual FIA Futures Cares Great Chicago Steakout, a key Futures Cares fundraising event to support the Greater Chicago Food Depository.

### Networking for a Great Cause
